## ABOUT US

At LLCP, we are passionate about empowering the next generation of leaders through faith, confidence, and character development. Our programs focus on building emotionally secure, spiritually grounded, and socially responsible students who can positively impact their schools and communities.

Through engaging camps, workshops, and mentorship, we provide young people with opportunities to grow in leadership, teamwork, and personal resilience. At LLCP, every learner is valued, supported, and equipped to discover their full potential while having fun, making lasting friendships, and creating meaningful experiences.

# OUR MISSION

Mentoring young people in high schools, through fulltime life coaches. Hosting many weekend camps to free people from life's hang-ups, hurts and habits. Reducing crime in our inner city through community involvement with the police.

# IMPACT

Throughout the weekend, students will participate in team-building activities, vision planning sessions, and personal growth discussions led by our full-time life coach, Neo Ramphele, together with our experienced life coaches and facilitators. The focus will be on responsibility, character development, collaboration, and purposeful leadership. We truly believe this camp will be a meaningful and empowering experience that will positively impact both your child and the school community.
