Welcoming a New Generation of Officers

Honouring Fathers Who Serve Our Communities

The gathering was a great success, with officers from the various stations learning more about the initiatives taking place at Kempton Park SAPS, including our dedicated prayer room and the many community outreach programmes that have become an important part of the station's culture. It was encouraging to share how faith, partnership, and community involvement are making a positive impact within the station.

Pastor Andre was honoured to share a message of encouragement from God's Word and to lead a special time of prayer, speaking blessings over every father present. It was a meaningful occasion that reminded us of the important role fathers play—both in their families and in the communities they serve. We are grateful for the opportunity to continue building strong relationships with SAPS and to be part of encouraging those who dedicate their lives to serving others.

Building New Partnerships That Strengthen Our Community

This month marked the beginning of an exciting new partnership with the Arwyp Medical Centre Training Institution. Pastor Andre had the honour of being invited as the guest speaker at the graduation ceremony, where more than 60 newly qualified nurses celebrated the successful completion of their training. The event became much more than a graduation celebration. Through this new relationship, Arwyp has generously committed to providing **free Level 1 First Aid training** for all of our LLCP Life Coaches. This incredible opportunity is a direct answer to prayer and will equip our team with valuable skills as they continue serving children, families, and the wider community. We believe this partnership is only the beginning. It opens the door for ongoing collaboration between LLCP and the dedicated staff of Arwyp Medical Centre, allowing us to work together in bringing hope, care, and practical support to the people of Kempton Park. We are deeply grateful for this opportunity and look forward to seeing the lasting impact that this relationship will have on our community for years to come.

The Vision in Action: Schools and Churches United

One of the greatest highlights of the month was seeing our vision come to life as the local school and church united to serve the community together. Learners and families from Kempton Park Laerskool collected groceries, which were generously donated to the Assemblies of God Church. The donation was formally handed over by the prefect of Kempton Park Laerskool, marking a meaningful moment of student leadership and community involvement. This partnership is especially significant as Lonwabo, who is not only the youth pastor at the Assemblies of God Church but also serves as an LLCP Life Coach at Kempton Park Laerskool, helps build a strong bridge between the school and the church. His dual role continues to strengthen collaboration and shared impact between both spaces. In addition to the groceries, a generous donation of clothing was received and distributed during a special Sunday outreach service. Together, the school and church demonstrated the power of unity by using practical acts of kindness to open doors for the Gospel of Jesus Christ. Families were not only supported with essential items but were also warmly welcomed into the life of the local church, creating opportunities for ongoing connection, care, and discipleship. This is the heart of LLCP—to see schools, churches, and communities working together to bring hope, meet practical needs, and point people to Jesus Christ. We are encouraged to see these partnerships growing and making a real difference in Kempton Park.
